E-MOBILITY**

# BASIC

## Safe and simple

BASIC is a fuss-free EV charger that conveys the same design qualities as the All wallbox family. It is good looking sturdy, and made from sustainable materials.

The BASIC allows safe charging at home with built-in electrical protection and simple plug & play mode. At the same time, built-in cable holder keeps charging cable away, when not in use.

Thanks to its minimalistic approach and optional interactive upgrade, the BASIC is built to outlast your EV – without the hefty price tag.

- A simplified user interface with LED status indicator offers just enough information for uninterrupted daily use.
- The larger size provides ample space for the built-in electrical protection.
- Simple plug & play mode with pre-set configuration allows fast installation.
- Sturdy aluminium housing keeps components safe and secure, thus increasing the charger life. Durability reflects in an extended product warranty.

To tech-proof your EV charging investment, we offer the Basic owners an optional interactive upgrade to adhere to the latest technology standards and benefit from the interactive charging technology.

<i>Max charging power</i>	<i>7,4 kW (1 x 32 A), 22 kW (3 x 32 A) adjustable</i>
	<i>Type 2 socket Type 2 tethered charging cable</i>
<i>Level of protection</i>	<i>IP 56, IK 10</i>
<i>Electrical protection</i>	<i>RCD type A + DC fault current sensors 6 mA (default), RCD Type B or MCB char. C (optional)</i>
<i>User identification</i>	<i>Plug &amp; play</i>
<i>EV communication</i>	<i>IEC 61851 supported</i>
<i>Clustering</i>	<i>Not supported</i>
<i>Energy meter</i>	<i>Class 2 energy meter, MID optional</i>
<i>Smart building integration</i>	<i>Not supported</i>
<i>User interface</i>	<i>LED status lights</i>
<i>Material</i>	<i>Aluminium housing, Polycarbonate Lexan cover plate</i>
<i>Colour options</i>	<i>Graphite Grey</i>
